Please follow these steps:

- 1.) Close SwyxIt! and ClientLineManger process.
- 2.) Replace file IpPbx.VisualGroups.WebExtension.ocx in folder “C:\Program Files (x86)\SwyxIt!” with the released new OCX file version referenced in this document.
- 3.) Start SwyxIt!

7 Known Issues

Topic	Title
Call Detail Records	Within CDRs, the Called Number field shows a name not a number.
Client	Sometimes (1 in 50 tries) when using the enhanced features in the Datacenter licensing scenario the statistics screen in the client will show a license error even when the user is correctly licensed. the workaround is to refresh the statistics web extension.

VisualGroups supports on SwyxExpress X20 up to ten configured VisualGroups users for SwyxExpress hardware revision IIIb or earlier. With newer SwyxExpress hardware revisions there is no restriction.
